

netfabb Online Training

netfabb Professional

netfabb provides a training for netfabb Professional where customers will learn how to use and work efficiently with our software.

The training style is a well balanced mixture of lectures to listen and exercises to practice.

An online training is the most comfortable way for everyone: the training takes place via an online conference and no travel costs occur. All listed prices are net prices.

netfabb Professional online training

An online training requires at minimum 5 participants.

Training duration: 2x 90 minutes with a break in between

Price: 119.00 € / 149.00 USD per participant

The training price includes training materials as PDF and a training certificate for each participant as PDF.

Weekend surcharges:
